OTC

HearingAids User Manual A-26

WARNING:If you are younger than 18, do not use this.

You should go to a doctor, preferably an ear-nose-throat doctor (an ENT), because your condition needs specialized care. Over-the-counter hearing aids are only for users who are age 18 or older.

This OTC hearing aids is for users who are 18 and older. People who are younger than 18 with hearing loss should see a doctor, preferably an ENT, because they may need medical testing and management. Hearing loss can affect speech and learning, so professional fitting and continuing care are also important.

WARNING:When to see a doctor

If you have any of the problems listed below, please see a doctor, preferably an ear-nose-throat doctor (an ENT).

- You saw blood, pus, or fluid coming out of your ear in the past 6 months.
- Your ear feels painful or uncomfortable.
- You have a lot of earwax, or you think something could be in your ear.
- You get really dizzy or have a feeling of spinning or swaying (called vertigo).
- Your hearing changed suddenly in the past 6 months.
- Your hearing changes: it gets worse then gets better again.

- You have worse hearing in one ear.
- You hear ringing or buzzing in only one ear. Your ear has a birth defect or an unusual shape. Your ear was injured or deformed in an accident.
- Your hearing changes: it gets worse then gets better again.

WARNING:This hearing aids should not cause pain when inserting it.

Remove this device from your ear if it causes pain or discomfort when you insert or place it. To try again, make sure to follow the instructions. If you feel pain or discomfort again, contact the manufacturer.

If your pain or discomfort doesn't go away, contact your hearing healthcare professional. You can also report this to FDA as an adverse event according to the instructions that appear later.

CAUTION:This is not hearing protection.

You should remove this device if you experience overly loud sounds, whether short or long-lasting.
If you're in a loud place, you should use the right kind of hearing protection instead of wearing this device. In general, if you would use ear plugs in a loud place, you should remove this device and use ear plugs.

CAUTION:The sound output should not be uncomfortable or painful.

You should turn down the volume or remove the device if the sound output is uncomfortably loud or painful. If you consistently need to turn the volume down, you may need to further adjust your device.

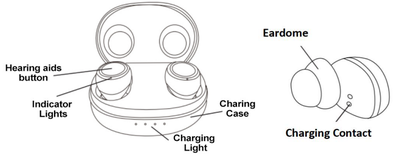

Caution: You might need medical help if a piece gets stuck in your ear.

If any part of your hearing aids, like the eartip, gets stuck in your ear, and you can't easily remove it with your fingers, get medical help as soon as you can. You should not try to use tweezers or cotton swabs because they can push the part further into your ear, injuring your eardrum or ear canal, possibly seriously.

NOTE:If you remain concerned, consult a professional.

If you try this device and continue to struggle with or remain concerned about your hearing, you should consult with a hearing healthcare professional.

GET TO KNOW YOUR HEARING AIDS

IMPORTANT NOTE:This hearing aids is not ear-specific; both can be used for either ear.

Technical Specification

Maximum output (OSPL90)	<109dB+3dB

HOW TO USE THE HEARING AIDS

STEP 1: CHARGE THE HEARING AIDS

1. The hearing aids should be fully charged before using them for the first time.
2. Place the hearing aid in the charging case to charge.
3. Charging: Light stays on.
4. Full charge: Light off. Takes 2-3 hours.

STEP 2: CHARGE THE CASE

1. Plug the USB end of the cable into the wall charger.

2. Plug the micro-USB end of the cable into the charging case.

3. Charging case takes 3-4 hours to fully charge.

Indicator lights guide you:

- First LED flashes: very low battery.
- Second LED flashes: low battery.
- Third LED flashes: medium charge.
- Fourth LED flashes: high charge.
- All LEDs lit: fully charged.

STEP 3: ASSEMBLE THE EARDOME

1. Please choose an ear dome which fit your ear canal.

STEP 4:WEAR THE HEARING AIDS

1. Hold the hearing aids with your thumb and index finger. Gently push in the ear canal and use the other hand at the same time. Pull your auricles back to make it easier for you to wear them.

2. Before wearing the hearing aids should be turned off or the volume should be at the minimum position, otherwise it may cause discomfort when the earplug is inserted into the ear.

STEP 5:WEAR THE HEARING AIDS

1. ON：Remove the hearing aids from the charging case for about 3 seconds, it will turn on automatically; or press and hold the multi-function button for 5 seconds until you hear three "beep" sounds.
2. OFF：Place the hearing aids in the charging case, it will turn off automatically; or press and hold the multi-function button for 5 seconds until you hear a series of rapid "beep" sounds indicating it's off.

STEP 6:WEAR THE HEARING AIDS

1. Press the button briefly for 1 second to adjust the volume.
2. Lowest volume: three short “beeps”, highest volume: one long "beep”

STEP 7:MODE SWITCHIN

Hold button 3 sec to change modes. Mode indicators are as

Mode 1	Beep
Mode 2	Beep-Beep
Mode 3	Beep-Beep-Beep
Mode 4	Beep-Beep-Beep-Beep

STEP 8:WEARING INSTRUCTIONS

1. Turn down the volume or power off the hearing aids.
2. Hold the hearing aids with thumb and finger, gently pull out from the ear canal.

HOW TO ADAPT TO THE HEARING AIDS

STEP 1:AVOID SITUATIONS WHERE HEARING IS DIFFICULT.

Start your listening exercises in familiar environments, get used to how to use the hearing aid. In the first few weeks, avoid wearing the hearing aid in noisy places like supermarkets or airports.

STEP 2:GRADUALLY EXTEND DAILY WEAR TIME

Initially, wear the hearing aid for no more than one to three hours per day, and gradually increase the daily wear time to help you slowly adapt to the sounds around you.

STEP 3:LEARN TO LISTEN IN NOISE AGAIN

You need to go into noisy environments, practice focusing, and train yourself to ignore annoying sounds to complete your task.

STEP 4:ENJOY LISTENING

After practice, try everything you want and enjoy all sounds. If still unsatisfactory, slow down and consult your audiologist or doctor.

HOW TO ADAPT TO THE HEARING AIDS

- -Clean hearing aids and case weekly with a dry cloth.
- - Wash ear tips twice a week.
- - Clean earwax twice a week.
- - Disinfect with 70% alcohol if needed.
- - Turn off when not in use.
- - Dry if damp.
- - Charge monthly if unused for over a month.
- - Handle with care.
